CURRICULUM VITAE

GRAHAM LEONARD NEWSTEAD AM

MB BS (Syd), FRACS, FRCS (Eng), FACS
Hon FASCRS, Hon FRSM, Hon FACP (GBI)

Graham Newstead is a **Colorectal** surgeon, with significant surgical experience, and with specialised expertise particularly in all aspects of Proctology, including **Anal and Rectal** problems and especially the management of **Haemorrhoids, Fissures and Fistulae**.

He was involved with the introduction and development of **Colonoscopic Services** into Australia and with its subsequent evolution, and has extensive Australasian and International involvement in **Bowel Cancer Prevention, Screening and Management Programmes**.

CLINIC: Suite 17, Level 7

Medical indemnity insurance: MIGA Medical Defence, Australia

POSITIONS

Chairman, International Council of Coloproctology *

Chairman, Bowel Cancer Foundation *

(Medical) Director, Board of Bowel Cancer Australia

(Past) Chairman *, Colorectal Surgical Society of Australia and New Zealand Foundation

Board Member, Medical Advisory Council & Head of Colorectal Surgery, Prince of Wales Private Hospital

Honorary Associate Professor of Surgery, University of New South Wales

Honorary Consultant Colorectal Surgeon (Visiting Medical Practitioner), Prince of Wales Hospital

Honorary Consultant in Colorectal Surgery, Sydney Children's Hospital & Royal Women's Hospital

Advisor, International Committee, American Society of Colon and Rectal Surgeons

**Founding*

HONORARY FELLOWSHIPS

1996 Honorary Member, Section of Coloproctology, Royal Society of Medicine, UK

1996 Honorary Fellow, Association of Coloproctology, Great Britain & Ireland

2008 Honorary Member, Eurasian Colorectal Technologies Association

2012 Honorary Fellow, American Society of Colon & Rectal Surgeons

QUALIFICATIONS BY ELECTION

1980 Fellow, American College of Surgeons

1988 Fellow, Asia Pacific Society of Digestive Endoscopy

1993 Fellow, American Society of Colon & Rectal Surgeons

QUALIFICATIONS BY EXAMINATION

1966 MB BS, University of Sydney

1971 Fellow, Royal Australasian College of Surgeons

1974 Fellow, Royal College of Surgeons of England

CERTIFICATION

In colonoscopy: Gastroenterological Society of Australia
Section of Colon and Rectal Surgery, Royal Australasian College of Surgeons
Conjoint Committee for Recognition of Gastrointestinal Endoscopic Training.

In gastroscopy: Gastroenterological Society of Australia
Conjoint Committee for Recognition of Gastrointestinal Endoscopic Training

RESEARCH FELLOWSHIPS

1972 Vandervell Research Fellowship, Institute for Cancer Research, London

1972-4 Gordon Jacobs Research Fellowship, Institute for Cancer Research, London

1982 Merck Sharp & Dohme Lecturer, Australia

AWARDS

Certificate for Exemplary Service, Australian Cancer Network, 2000

Member of the Order of Australia (A.M.), Governor General of Australia, June 13, 2005

Awarded for service to medicine in the field of colorectal surgery, particularly through the development of the Colorectal Surgical Society of Australasia, the implementation of international specialist surgical training programmes, and the promotion of health awareness initiatives.

Life Member, Colorectal Surgical Society of Australia & New Zealand, 2015

LISTINGS

Who's Who in Medicine & Healthcare 1996-

Year Book of International Organizations 1997-

International Health Professionals, International Biographical Centre, Cambridge 2005-

MEMBERSHIPS

- Colorectal Surgical Society of Australia & New Zealand
- American Society of Colon & Rectal Surgeons
- Royal Australasian College of Surgeons
- Royal College of Surgeons of England
- American College of Surgeons
- Australasian Gastrointestinal Trials Group
- St Marks Association, London
- Eurasian Colorectal Technologies Association
- International Society of University Colon and Rectal Surgeons

HOSPITAL ASSOCIATIONS

□ _____

□ Life Member RMOs Association, Prince Henry and Prince of Wales Hospitals, 1976

□ _____ Elected member St Mark's Association, 1979

□ Elected Member, Cleveland Clinic Surgical Society, 1984

EDITORIAL CONTRIBUTIONS

Australian Cancer Society, 1984

Colon and Rectal Surgery Outlook, 1990-1993
International Journal of Colorectal Surgery (Associate Editor), 1991-1999

PROFESSIONAL ACTIVITIES

MEMBERSHIP OF PEER REVIEW COMMITTEES

Assessor Panel, National Health and Medical Research Council

Victorian Anti-Cancer Council Assessor Panel for Cancer Research Grants

Clinical Surveyor, Australian Council on Hospital Standards, 1982 - 1988

Examiner, Australian Medical Examining Council, 1984 - 1988

Quality Assurance Co-ordinator (Surgery) Prince of Wales & Prince Henry Hospitals, 1984 - 7

Chairman Certification Committee, Gastroenterological Society of Australia, 1987 - 1989.

Selection Committee: Colorectal Surgical Training, Section of Colorectal Surgery,
Royal Australasian College of Surgeons, 1988 - 1990.

Chairman, Joint Committee on Recognition of Endoscopy & Gastrointestinal Training, Royal Australasian
Colleges of Surgeons & Physicians and Gastroenterological Society of Australia, 1988 - 1990.

Laparoscopic Surgery Standards and Training Committee
Colorectal Surgical Society of Australia & Section of Colon and Rectal Surgery, RACS 1991 - 1992

Guest Examiner, American Board in Colon & Rectal Surgery, Chicago, USA September, 1995

Governing Committee, Cancer Control Network, NSW State Cancer Council, 1999-

Panel on Standards of Practice, Board of Continuing Professional Development, Health Insurance
Commission and Royal Australasian College of Surgeons, 2000-

Member, Standards Committee, American Society of Colon and Rectal Surgeons, 2000-2008

Professional Services Review Panel, Ministerial appointment, Federal Department of Health
& Royal Australasian College of Surgeons, 2001-5

National Bowel Cancer Screening pilot studies programme, 2004

Medical Services Advisory Committee, Federal Department of Health and Ageing, 2005-9

Member, CSSANZ Foundation Grants Review Committee

Assessor, Australian Government Priority-Driven Collaborative Cancer Research Scheme, 2013

INTERNATIONAL COLORECTAL ACTIVITIES *

World Congress of Coloproctology, Sydney, 1990

World Council of Coloproctology, founded (Hamilton Island) 1990

Tripartite Colorectal meeting (UK, USA, Australia) re-organised as triennial, 1993

Asian Federation of Coloproctology (biennial meeting) re-established, 1996

Presentation Gavel manufactured as Centenary gift for ASCRS from CSSA, designed 1999

Outreach programs in Colorectal surgery initiated, 2003

International Colorectal database of National Societies of Colorectal Surgery established 2003-4

International Travel Scholarships initiated (American Society of Colon & Rectal Surgeons), 2004

Diseases of Colon and Rectum adopted as official journal of Colorectal Surgical Society of Australasia, 2004

Killingback Prize (for best Colorectal scientific paper, RACS) accorded automatic podium presentation at annual meeting of ASCRS

Database of International Colorectal Training and Fellowship Exchange Programmes developed, 2006 (maintained semi-annually)

ICCP Website developed; regularly updated information on database and communication between all National Societies of Coloproctology, applications for Fellowships & Scholarships, Training Programmes, Outreach opportunities, etc

Workshop on International Standards for Colorectal Training Programmes, St Louis, USA 2007

Appointed Honorary Member, Eurasian Colorectal Technologies Association, 2008

Workshop on International Colorectal Training Programmes, Boston, USA, 2008

Workshop to address merger between International Council of Coloproctology and International Society of University Colon & Rectal Surgeons, Florida, USA, 2009

Continuing activities to assist emerging National Societies of Coloproctology, to strengthen the established Federations

Expansion of Tripartite Colorectal Meetings to include other Colorectal Federations

ICCP Meetings annually: Most recently at ASCRS Meeting in Cleveland, OH, USA, June 2019

**Founded/established by personal initiative*

INTERNATIONAL COUNCIL OF COLOPROCTOLOGY ACTIVITIES

Highlights:

Databases: National Societies of Colorectal Surgery; Federations; Meetings; Training Programmes; International. Regularly updated.

Exchanges between Fellows from various countries training Fellows in Colorectal surgery.

Workshops on Minimum Standards, Training Programmes and Bowel Cancer Prevention Programmes

Travel Scholarships for those (seeking) training from countries with less well developed colorectal programmes: “Them to Us”. Funding awarded for 3-4 Programmes per annum

International Fellowships for those in colorectal practice but needing specialised exposure to recognised units: “Them to Us”. Funding awarded for 2 Programmes per annum since

Outreach Programmes undertaken: “Us to Them”; eg: Africa, Indonesia, Cambodia, South Africa

Support for Development of national societies of Coloproctology; eg Iran, Israel, Lithuania, et al.

Expansion of Tripartite (triennial) meetings to include all Federations of Coloproctology

International Bowel Cancer Awareness Programmes a permanent Agenda item for ICCP, 2009-

Annual International ICCP Fellowships and Travel Scholarships enhanced (Tier 1 Second World Economies)

Managed changes in structure of ICCP to better represent all major international Colorectal Federations and organisations, 2011

Database & promotion of Bowel Cancer Prevention Programmes, 2011-

Background Details:

The initial role of ICCP, founded in Australia in 1992, was the development of documentation and databases relating to international colorectal surgical organisations. This continues, but has been expanded to assist the development of emerging societies and, subsequently, to encourage training of potential colorectal surgeons from countries with embryonic programs.

I. Training and International Scholarships:

Historically, funds for these were provided by ASCRS for ICCP to administer.

Several colorectal Federations have, in more recent years laudably, emulated the concept of the provision of such programs. As a consequence, ICCP recently recommended that a committee of ASCRS (the International Committee) be formed to administer these funds, where deserved, for attendance at ASCRS meetings and, for selected candidates, for further experience in appropriate centers throughout the USA and elsewhere.

ICCP believed its responsibilities to international colorectal activities should take precedence and now concentrates on these (other) aspects of its program.

Recipients still present on the state of colorectal services and training in their respective countries at the ICCP Meeting held during the annual ASCRS meeting.

Following discussions between ICCP and the International Committee of ASCRS it was suggested that funds for 1 (one) international Scholarship might be administered by ICCP (rather than the ASCRS International Committee), to be combined with funds sourced from the other major colorectal Federations (and possibly some larger Societies) and elsewhere; the award to be made to a candidate from a less well developed country and undertaken in **any** appropriate facility throughout the world. Chairs of ICCP and the International Committee would then jointly approach the relevant organisations with the proposal. Some outside funds have already been raised for this purpose by ICCP.

If approved by Council, ICCP will immediately generate the criteria for such an award.

The current financial allocation for Scholarships from ASCRS to the International Committee is \$32,000: the proposal is that a sum of money (possibly \$10,000) would be made available for the ICCP Council. A further amounts are then available for either advanced candidates to experience major colorectal centers in the USA and in other countries and selected by the International Committee of ASCRS, (with input from the Chairman of ICCP, a standing member of the International Committee). The remaining funds are utilized as Travel Scholarships for more junior trainees, also administered by the International Committee.

In recent years, to ensure long term continuity, ICCP has arranged with ASCRS to form an International Committee to maintain the annual Travel Scholarships and Career Fellowships.

II. Reciprocity of membership between ICCP Council and the International Committee is considered to essential to the work of both bodies. Drs Newstead (ICCP Chair), Billingham, Goldberg, and Wexner together with the President and Secretary of ASCRS have been members of the broader International Committee; and Drs Billingham, Goldberg, Wexner and Spencer, together with the President and Secretary of ASCRS are members of the broader International Council of Coloproctology, with myself as Chairperson.

III. Development of Coloproctology internationally: ICCP continues to assist (and has been assisting) those countries or organisations wishing to develop colorectal services as a specialty.

- IV. Outreach:** This is a major current and continuing function of ICCP. After some enthusiastic expressions of interest, a program has now been developed and is (modestly) funded. Contact has been made with potential financial supporters, exploration of areas of need undertaken whilst ensuring recognition of the relevant medical, social and political realisms. In addition the potential to utilise corporate interest in emerging markets plays a relevant role in planning. Three such ventures were undertaken in 2016
- V. Bowel Cancer prevention programs:** ICCP has identified currently available national programs and has assisted with the introduction and expansion in a number of other countries as are both relevant and possible and have been carried out in a number of countries including Singapore
- VI. International Links:**
- a. ICCP is always prepared to add the website links of any colorectal organization to its website.
 - b. ICCP has facilitated with the addition &/or merger of some colorectal bodies with larger Federations. eg. Australia has become a member country of AFCP, now called the APFCP (Asian-Pacific Federation of Coloproctology), with a meeting to be held in Melbourne, Australia in 2015
 - c. A conduit for international Research projects; recent examples include a Colorectal Cancer Management protocol for the Italian Society of Colorectal Surgery and a Research questionnaire from the Netherlands, promulgated internationally.
- VII. Maintenance of Database (Secretariat):**
- a. **Councils:** Bi-annual calls to the national and federated member organisations of ICCP are made to maintain a current database of individuals regarding their executive structures and especially contact details.
 - b. **Training Programs:** Similarly, regular updates are made to detail current status of the various colorectal training programs around the world allowing both international comparisons and to assist those countries wishing to develop their own program
 - c. **Scholarship and Exchange Programs:** Again, a database for such activities is maintained to assist (potential and advanced) trainees.
 - d. **Future Colorectal Meetings:** Maintained as information becomes available
- VIII. Secretariat:** Funded for ICCP activities by ASCRS
- IX. Website:** A working party meeting will revise the template of activities and particularly colorectal data collection for Colorectal Organizations, Training programs, Outreach, Bowel Cancer Prevention and Scholarships (as above in Section VII) internationally.
- X. Stomalththerapy:** Support by ICCP for International Stomalththerapy Programmes in developed and developing countries.

COLORECTAL ACTIVITIES WITHIN AUSTRALASIA

Introduction of specialist colorectal services to the Prince of Wales Hospitals group *

Anorectal physiology and ultrasound services established, POWH group *

General surgical registrar training in colorectal surgery (new trainee every 6 months since 1975)

Student tutorials throughout academic year (approx 4 groups p.a., years 4,5 & 6), currently final year

Trainees in colonoscopy (at least one p.a. to accreditation level)

Specialised colorectal consultant services to The Prince of Wales (later, The Sydney) Children's Hospital *

Stomal-therapy nursing services to the Prince of Wales Hospitals Group and, from 1998, to the Prince of Wales Private Hospital *

Conjoint Committee for Recognition of Gastrointestinal Endoscopic Training (GESA, RACS, RACP)*

Regulations for day Endoscopy Centres with NSW Department of Health *

Constitution of the Sydney Colorectal Surgical Society *

Constitution and development of the Colorectal Surgical Society of Australia, 1988 *

Membership Certificates for SCSS and CSSA

Post-Fellowship Australasian Colorectal Surgical Training Programme & formation of Training Board

First Fellow in Training Programme appointed to Prince of Wales Hospital (Dr Philip Douglas) *

Colorectal Associates formed *

Recognition of colorectal surgery as a specialty (Federal Department of Health, AMA, RACS) *

Revision of the Medical Benefits Schedule (incorporation of colorectal surgical section)*

First Colorectal Laparoscopy Workshop, CSSA, 1991 *

Guidelines for Best Practice in colorectal surgery, CSSA *

Bowel Cancer Prevention Programme, 1998 *

Colorectal Research Fund, 1999 *

Clinical Fellowship in Colorectal Surgery, Prince of Wales & Prince of Wales Private Hospitals, 2000- *

Negotiation on medical indemnity arrangements for specialist colorectal surgeons *

Sydney Colorectal Associates founded, 2002 *

Harry O Triguboff Research Fellowship approved 2002; first awarded 2003- *

The Colorectal Foundation established, 2003. (Later the Bowel Cancer Foundation) *

Established Colorectal Clinical Nurse Consultant positions at Prince of Wales Private Hospital 2003 *

Review of Constitution, Colorectal Surgical Society of Australasia 2003-4

Public Affairs Committee, CSSA, 2003 *

Media Awards prize, CSSA

Directors Insurance, CSSA

President's Medallion & Chain and past-Presidents' pins designed & presented to CSSA, 2003 *

Promoted establishment of level of Fellow within ASCRS

Constitution developed to establish the Colorectal Surgical Society of Australasia Foundation, 2004 *

Constitution for Medical Advisory Committee, Sir Moses Montefiore Jewish Home, 2006 *

ASCRS Practice Parameters adopted by Colorectal Surgical Society of Australia and New Zealand, 2006

Re-designed CSSANZ emblems to incorporate New Zealand and the CSSANZ Foundation, 2006 *

Australian Bowel Cancer Screening Campaigns, 2006 - *

Expansion of Tripartite Colorectal Meeting to include international Colorectal Federations, 2009 *

Developed the Bowel Cancer Coalition

Amalgamated Bowel Cancer Foundation and CSSANZ with Bowel Cancer Australia, 2010 & 2011

Strategic Planning CSSANZ, 2011

Stomaltherapy services developed for Bowel Cancer Australia, 2013*

Revision of Colonoscopy MBS Items in conjunction with the Federal Department of Health, 2019

Expansion of the National Bowel Cancer Screening Programme from 5 (five) to 2 (two) yearly, 2020*

* *Founded/established by personal initiative*

THE BOWEL CANCER FOUNDATION (Previously the Colorectal Foundation)*

Commenced in 2000 as the Bowel Cancer Awareness Programme
Constitution developed to form the Colorectal Foundation, Registered as a Research Charity 2002
Full time Administrator appointed; 2010 Public Relations Consultant appointed

Harry O Triguboff Research Fellow appointed annually; Co-ordination Colorectal research projects

Continuous and continuing Bowel Cancer Awareness Programme

National Bowel Cancer Awareness Week, June 7-13, 2009, then annually; launched in Martin Place; 2010 from Prince of Wales Hospital

Corporate (and other) activities for Awareness and fund raising (including Special events such as Concerts, comedy evenings, etc)

“Super Colon” (inflatable colon demonstrating Colorectal neoplasia) with video display and Awareness information at events and in City streets and at shopping centres (staging, display, transport & storage arrangements; supporting sponsors sourced & acknowledged).

Events: 50th Birthday parties in lieu of gifts; SBS Youth Orchestra, Sydney Conservatorium; Gala Events

High quality professional Ads produced ('Conversation Killer', Angry Anderson Miriam Margolyes & 'Beach Scene'), shown on commercial & Pay TV & at public events (New Year's Eve, Easter Show etc) on giant TV screens In several capital cities; shown in cinemas during peak screening times (eg. during “Oscar” screenings)

Web Sites: www.getscreened.com.au; www.bowelcancerfoundation.org

"Prod-a-Mate" viral Screening emails (from Angry Anderson)

DVD produced (with Dr John D'Arcy)

Display banners & posters (standard & "graffiti" styles) developed & printed
Pamphlets & Brochures printed & distributed

Articles in major daily and local newspapers.

Media Appearances (occasionally with Super Colon) on Kerrie-Anne show; 60 Minutes; Ch 10 News; Sky News interviews on multiple radio stations including national rural network.

Bus advertising posters (rear, sides and inside): various centres and bus companies

GP Educations programmes: Booth at GP conferences; computer download page from “Medical Director” (>80% of GP's clinics); Education programmes at Seniors' weeks (& similar) in several states

Arranged for Public Raffle of Mercedes Benz car (Awareness and fund raising)

Preparations for a recovering colorectal cancer patient to attempt to cross Australia (directly) coast to coast by motorcycle; interviews with bowel cancer patients and families for public education

Development of Bowel Cancer Coalition (Collaboration of organisations involved in Bowel Cancer

prevention)

Meetings at Offices of Federal Minister of Health; Most recently November 2019.

BOWEL CANCER AUSTRALIA *National Public Awareness Programmes*

The Bowel Cancer Foundation merged with Bowel Cancer Australia in December 2010 to consolidate all Awareness, Education and Prevention activities into one National organisation.

Human resources personnel and tangible assets of both bodies were retained and merged.

Corporate re-structure undertaken, with GLN as Chairman of the (retained name of the) Bowel Cancer Foundation (the entity responsible for Awareness, Media and Social advocacy within Bowel Cancer Australia).

Bowel Cancer Foundation an integral part of Bowel Cancer Australia from 2014. GLN as Director responsible to CEO and Board regarding Awareness, Education and Prevention.

Board raised funding for Chair in Colorectal Cancer Research at the University of Sydney, 2016.

Established and Appointed Chair in Colorectal Cancer Research at Royal North Shore Hospital, 2019.

Recognised by Professional Bodies and Government as the primary specialty professional spokesgroup for Bowel Cancer in Australia

Close collaboration with many similar international organisations

Please see: ***www.bowelcanceraustralia.org***

Current Activities:

Advocacy

Ambassadors Programme

Bowel Cancer Awareness Month, annually

Support for Research Chair at University of Sydney

Corporate participation programmes

Government Lobbying (States and Federal) for Bowel Cancer Australia

Media: News, Radio and TV

Multiple Events: Awareness and fund raising

Continental Secretary for Australasia, 1990 - 1994
Associate Director, International Advisory Committee, 1994-8
10. World Council of Coloproctology
Chairman, 1991 - 2002
11. International Council of Coloproctology
Chairman, 2003 –
12. The Colorectal Foundation
Chairman, 2006-10
13. The Bowel Cancer Foundation
Chairman, 2010-
14. Board Member (Clinical Director), Bowel Cancer Australia, 2014-

PROFESSIONAL CONSULTANCIES

1. NSW Department of Health:
Advisor on Colorectal Surgery, 1985
Advisor on Endoscopy Standards, 1986
Member, Ad hoc Committee on Endoscopy, 1991
2. Merck, Sharp & Dohme:
Infectious Disease Faculty, 1985 - 1988
Gastrointestinal Faculty, 1988
3. Australian Crohn's & Colitis Foundation
Surgical Advisor, 1986
4. Auto-Suture Australia:
Australian Surgical Stapling Panel, 1988
Laparoscopic Surgery Faculty, 1991
5. AMA:
Recognition of Colorectal Surgery as speciality - 1988
Medical Practice Committee, 1992
6. Advisory Committee on Nutrition
Edelman Public Relations Worldwide, 1991
7. Governing Committee, Cancer Control Network, NSW State Cancer Council, 1999-2002
8. State Medical Advisory Committee, Mayne Health, 2003-4
9. Affinity Health, National Medical Advisory Council, 2004-5

10. BTS Research International Pty Ltd, Advisory Board, 2005-

EDUCATION

School Education

1949 - 1957 Cranbrook School, Sydney, Australia
1958 - 1959 Sydney Boys High School, Sydney, Australia

Medical Education

1960 - 1965 University of Sydney
Graduated MB BS January 1966

PROFESSIONAL EMPLOYMENT RECORD

Graduate Hospital Clinical Experience

1966 - 1968 Junior and Senior Resident
The Prince of Wales and Prince Henry Hospitals, Sydney, Australia
1968-1971 Surgical Registrar
The Prince of Wales and Prince Henry Hospitals, Sydney, Australia
1972 Surgical Fellow,
Cleveland Clinic, Ohio, USA
1972-1974 Senior Surgical Registrar (Colorectal)
(Mr John Griffiths, Mr Cyril Cooling)
Royal Marsden Hospital, London, England.
1974-1975 Senior Surgical Registrar (Colorectal)
(Mr Ian P Todd)
St Bartholomews Hospital, London, England.

Clinical Assistant in Colorectal Surgery
(Mr H E Lockhart-Mummery)
St Marks Hospital, London, England.

Teaching and Research Positions

1969 Junior Lecturer in Anatomy
University of New South Wales, Sydney
1972-1973 Research Fellow
(Awarded **Gordon Jacobs Fellowship**)
Institute of Cancer Research
Royal Marsden Hospital, London, England
1975-1979 Lecturer in Surgery, University of New South Wales, 14 July 1975
(Tenure granted 5 December 1977)
1979-2001 Senior Lecturer, 1 July 1979 – 30 June 2001
Annual elevation to maximum scale
1998-
2001-2004 Governing Director, Colorectal Research Fund
2002-2004 Conjoint Senior Lecturer, University of New South Wales
2002-2003 Director, Harry O Triguboff Colorectal Research Fellowship
2003-2003 Co-ordinator, Research Committee, Sydney Colorectal Associates
2003-2003 Chairman, the Colorectal (later the Bowel Cancer) Foundation

2004-6 Chairman, Colorectal Surgical Society of Australia & New Zealand Foundation
2004- Conjoint Associate Professor of Surgery, University of New South Wales

HOSPITAL APPOINTMENTS

Public Hospital Appointments

1972 Relieving Staff Surgeon
North Western General Hospital, Burnie, Tasmania, Australia

1975-2001 Honorary Surgeon, (subsequently) Visiting Medical Officer, (later) Visiting Specialist
and Clinical Academic appointments to:
The Prince of Wales and Prince Henry Hospital & Eastern Suburbs Hospitals, Sydney, Australia

1981- Consultant in Colorectal Surgery (Visiting Medical Practitioner)
The Sydney Children's Hospital

1989-1991 Deputy Chairman, Medical Staff Association, Prince of Wales & Prince Henry Hospitals, Australia

1991- 1998 Associate Director, Division of Surgery
Prince of Wales & Prince Henry Hospitals, Sydney, Australia

1994 -1995 Clinical Director, Division of Surgery
Prince of Wales & Prince Henry Hospitals, Sydney, Australia

1996 – 2007 Chairman, Colorectal Surgery
Prince of Wales Hospital, Sydney, Australia

2001- Visiting Medical Practitioner (Colorectal Surgery), Prince of Wales Hospital, Sydney Childrens'
Hospital, Royal hospital for Women, South-Eastern Sydney Area Health Service

2012- Honorary Visiting Medical Practitioner (at hospitals as above)

Private Hospital Appointments

Prince of Wales Private Hospital, Sydney, Australia

1997- Chairman, Colorectal Unit & Supervisor of Colorectal Training, (Colorectal Surgical
Society of Australia & New Zealand and Royal Australasian College of Surgeons Training Board)

1997-1999 Chairman, Operating Theatres Committee

1999-2001 Chairman, Patient Care Review Committee
Deputy Chairman, Medical Advisory Council

2001- 2016 Chairman, Medical Advisory Council

2017- Chairman, Colorectal Surgery, Board Member Medical Advisory Council

Private Hospital Accreditations

Prince of Wales Private Hospital, Randwick, NSW, Australia
The St George Private Hospital, St George, NSW, Australia
Hurstville Private Hospital, Hurstville, NSW, Australia

PREVIOUS COMMITMENTS

Chairman

- World Council of Coloproctology, 1991-2001 *
- Colorectal Surgical Society of Australia; President, 1995-6; Executive Director, 1996-2006 *
- Section of Colon & Rectal Surgery, Royal Australasian College of Surgeons
- Gastrointestinal Section, Clinical Oncological Society of Australia
- Joint Committee on Recognition of Gastrointestinal Endoscopic Training (RACS, GESA, RACP) *
- Endoscopy and Scientific Programme Committees, Gastroenterological Society of Australia
- Sydney Colorectal Surgical Society (Deputy Chairman) 1994-5
- International Society of University Colon & Rectal Surgeons, Continental Vice-President for Australasia & Associate Director International Advisory Committee
- Chairman, NSW State Medical Advisory Committee Member (Past Chairman), Affinity Health
- Chairman, Clinical Advisory Committee (& Honorary Colorectal Surgeon), Sir Moses Montefiore Jewish Home *
- Member, Bowel Cancer Coalition *

Secretary/Convenor

- Colorectal Surgical Society of Australia, Founding Secretary 1998*
- 4th World Congress of Coloproctology, Sydney, Australia 1990
- Tripartite Colorectal Meeting, Sydney, Australia 1993
- Combined Australian Colorectal Meeting, Sydney, Australia 1996
- ICCP Workshops on Training (2007), Standards (2008), Bowel Cancer Prevention Programs (2011), Outreach (2013), USA

Councillor

- Gastroenterological Society of Australia 1983-1989
- Sydney Colorectal Surgical Society *

- Gut Foundation of Australia *
- Asian Pacific Society of Digestive Endoscopy
- Section Colon & Rectal Surgery, RACS
- Clinical Oncological Society of Australia Subcommittee on Gastrointestinal Cancer Research
- Member, National Medical Advisory Committee: Affinity Health
- Chairman, Public Affairs Committee, Colorectal Surgical Society of Australia and New Zealand *
- Member, Standards & Membership Committees, American Society of Colon and Rectal Surgeons
- Member, International Study Group in Rectal Cancer, 2008
- Member, Medical Services Advisory and Professional Services Review Committees, Department of Health and Ageing, Commonwealth of Australia

**Founding*

Supervisor of Surgical Training

Prince of Wales & Prince Henry Hospitals, Sydney, Australia 1983-1990

RESEARCH & EDUCATION GRANTS

1. **1980, Merck, Sharp & Dohme; open study on safety and efficacy of \$2000**
Cefoxitin sodium in patients undergoing elective colorectal surgery,
2. 1981, Merck, Sharp & Dohme; Randomised trial of Cefoxitin sodium \$5000
against Gentamycin and Metronidazole in patients undergoing & materials
emergency colorectal surgery (unprepared bowel or peritonitis)
- 1981, NSW State Cancer Council and NHMRC
Biochemical study of Gastrointestinal Epithelial mucins in man
Recommended but not funded \$24,275
4. 1982, Faculty of Medicine Research Fund UNSW \$2500
(freezer for gene typing)
5. Private Donation to Cancer Research 1990-1993 \$2000
6. 1985, Merck, Sharp & Dohme. Antibiotics Lavage Trial \$5000
& materials
7. 1986, Merck, Sharp & Dohme: Open study of Imipenen in peritonitis \$7000
8. 1987, Roche; Study of recovery of Ceftriaxone from peritoneal fluid \$2500
After pelvic irrigation in patients undergoing rectal excision.
9. 1984 - 1986, NHMRC & NSW State Cancer Council funding for ANZ Bowel
Cancer Trials; Collaborative study with Prof BN Gray, University of Western Australia

9.	1986, Imipenen Study			\$20,000
10.	<u>Funds raised for Colorectal Societies:</u>			
	Autosuture 94-95	Development Grants	CSSA	\$20,000
		Follow up Workshop	CSSA	\$10,000
	Ethicon	Laparoscopy Workshop	CSSA	~ \$50,000
		Research Grants 95-98	CSSA	\$20,000
	ConvaTec	Website	CSSA	\$10,000
	Merck Sharpe & Dohme	~ 8 years @ \$5000		\$40,000
	Other funds	GESA & SCRSS		>\$100,000
11.	Bowel Cancer Prevention Programme (Meriton)		1997-	\$100,000 p.a.
12.	Harry O Triguboff Colorectal Research Fellowship		2003-7	\$75,000 p.a.
13.	Donations to the Colorectal Foundation		2003-9	>\$1,000,000
14.	Various donations (Bowel Cancer Prevention and Research projects), Baxter and TIMP		2005-	\$150,000
15.	Corporate and other donations for the Australian Bowel Cancer Prevention Campaign		2006-	\$500,000
16.	Research Funds for the CSSANZ Foundation		2005-9	>\$1,000,000
17.	Donations to Bowel Cancer Australia		2010-2012	<\$1,000,000
18.	Donations to the International Council of Coloproctology (annually)			\$50-100,000
19.	Donations to Bowel Cancer Australia 2012- present (annually)			\$100-120,000
20.	Johnson & Johnson Ethicon Endosurgery: for Colorectal Fellowship			\$50-60,000 p.a.

BOOK CHAPTERS

1. Volume Title Adjuvant Therapy of Cancer, B
Editor Sydney E. Salmon, MD
Contributing Authors Bruce N Gray, Hill de Zwart, Richard Risher, Ivor Burns,
Ronald Hurley, William Isbister, Hedy Mameghan,
Graham Newstead & Philip Reasbeck.

Published Grune & Stratton
Year 1987
Pages 537-546
2. Title Rob & Smith's Operative Surgery (5th Edition)
Volume Title Colon, Rectum & Anus
Volume Editors L. Peter Fielding & Stanley M Goldberg
Contributing Author Graham L Newstead
Chapter No & Name 25: Open Appendicectomy
Publisher Chapman and Hall
Year 1993
3. Title Rob & Smith's Atlas of General Surgery (3rd Edition)
Editors Carter, Russell & Pitt
Contributing Author Graham L Newstead
Chapter Open Appendicectomy
Publisher Chapman & Hall

PUBLICATIONS IN REFEREED JOURNALS

1. A case of Peutz-Jeghers syndrome presenting with recurrent intussusception. **Newstead GL**. Med J Aust. 1965 Oct 23; 2 (17):710-1.
2. The place of percutaneous cholangiography in managing the jaundiced patient. Elmslie RG, **Newstead GL**. Postgrad Med. 1969 Oct;46(4):89-94.
3. Fibrinolytic activity of carcinoma of the colorectum. **Newstead GL**, Salsbury AJ, Griffiths JD. Surg Gynecol Obstet. 1976 Jul;143(1):61-4.
4. Gallium-67 deposition in the human gastrointestinal tract. **Newstead GL**, Taylor DM, McCready VR, & Bettelheim R. Int J Nuclear Med & Biol. 1977;4:109-12.
5. Bowel Preparation with Mannitol. **Newstead GL**, Morgan BP. Med J Aust. 1979 Dec 1;2(11):582-3.
6. Splenic artery - pancreatic duct fistula. **Newstead GL**. Aust NZ J Surg. 1980 Apr;50(2):190-3.
7. The rational use of prophylactic antibiotics in abdominal surgery. Smart DW, **Newstead GL**. Aust NZ J Surg. 1982 Jun; 52 (3):270-4.

8. Logical clinical decisions in the investigation and management of non-urgent rectal bleeding. **Newstead GL**. *Gastroenterol Jpn*. 1991 Jul; 26 Suppl 3:107-10.
9. Adjuvant post-operative radiotherapy in rectal cancer: results from the ANZ Bowel Cancer Trial (Protocol 8202). Mameghan H, Gray BN, deZwart J, Fisher R, Burns I, Hurley R, Isbister WH, Reasbeck P, **Newstead G**. *Australian Radiol*. 1991 Feb; 35 (1):61-5.
10. *Campylobacter jejuni* enterocolitis causing peritonitis, ileitis and intestinal obstruction. Perkins DJ, **Newstead GL**. *Aust NZ J Surg*. 1994 Jan; 64 (1):55-8.
11. Best Practice Parameters in the Management of Rectal Cancer. Recommendations of the Colorectal Surgical Society of Australia. Killingback M, Chapuis P(Eds), **Newstead GL**, et al. *Aust NZ J Surg*. 1996;66:508-14.
12. Tailored lateral sphincterotomy for anal fissure. Littlejohn DR, **Newstead GL**. *Dis Colon Rectum*. 1997 Dec; 40(12):1439-42.
13. Positive cost effectiveness of early diagnosis of colorectal cancer, Bolin TD, Korman MG, Stanton R, Talley N, **Newstead GL** et al. *Colorectal Dis*. 1999;1:113-22.
14. Practice parameters for the management of colonic cancer I: Surgical issues. Recommendations of the Colorectal Surgical Society of Australia. Moore J, Hewett P, Penfold JC (Eds) & **Newstead G**, et al. *ANZ J Surg*. 1999 Jun;69(6):415-21.
15. Practice parameters for the management of colonic cancer II: Other issues. Recommendations of the Colorectal Surgical Society of Australia. Moore J, Hewett P, Penfold JC. (Eds) & **Newstead G**, et al. *ANZ J Surg*. 1999 Jul; 69 (7):472-8.
16. Hyperplastic polyposis of the colon and rectum-an association with significant pathology. Renaut AJ, Douglas PR, **Newstead GL**. *Colorectal Dis*. 2002 May; 4 (3):213-5
17. Anal Fistula: Levovist-enhanced endoanal ultrasound: a pilot study. Chew SC, Yang JL, **Newstead GL**, Douglas PR. *Dis Colon Rectum*. 2003 Mar; 46 (3):377-84
18. Short-term and long-term results of combined sclerotherapy and rubber band ligation of hemorrhoids and mucosal prolapse. Chew SSB, Marshall L, Kalish L, Tham J, Grieve DA, Douglas PR, **Newstead GL**. *Dis Colon Rectum*. 2003 Sept; 46(9):1232-7
19. Cholecystectomy in patients with Crohn's ileitis. Chew SSB, Ngo T, Douglas PR, **Newstead GL**, Selby W, Solomon MJ. *Dis Colon Rectum*. 2003 Nov; 46(11):1484-8
20. Colorectal cancer screening: Do they practice what they preach? Colquhoun P, **Newstead GL**, Weiss E, Effron J, Nogueras J, Vernava A, Wexner S. *ANZ J Surg* 2003; 73:1028-31
21. Functional outcome and quality of life after ileal pouch-anal anastomosis in children and adults: a comparative analysis, Chew SC, Kerdic R, Yang JL, Shi ECP, Douglas PR, **Newstead GL**. *Aust NZ J Surg* 2003 Dec; 73(12):983-7

22. Diverticulectomy is inadequate treatment for the short Meckel's diverticulum with heterotopic mucosa. Wong SW, Varcoe R, Chalmers VC, **Newstead GL**. ANZ J Surg. 2004 Oct; 74(10):869-72
23. A World of Colorectal Surgery. **Newstead GL**. Dis Colon Rectum. 2004 Oct; 47(10):1750-1
24. Practice parameters for the management of anal fissures. Orsay C, Rakinic J, Perry WB, Hyman N, Buie D, Cataldo P, **Newstead GL** et al. Dis Colon Rectum 2004; 47:2003-7
25. Practice Parameters for the treatment of perianal abscess and fistula-in-ano. Whiteford M, Kilkenny J, Hyman N, **Newstead GL** et al. Dis Colon Rectum 2005; 48: 1337-1342
26. Practice parameters for the management of hemorrhoids (revised). Ellis CN, Cataldo, P, Hyman N, **Newstead GL** et al. Dis Colon Rectum. 2005 Feb; 48(2): 189-94
27. Practice parameters for the treatment of perianal abscess and fistula-in-ano (revised). Whiteford M, Kilkenny J, Hyman N, **Newstead GL** et al. Dis Colon Rectum 2005 Jul; 48(7): 1337-42
28. Practice parameters for sigmoid diverticulitis. Rafferty J, Shellito P, Hyman N, **Newstead G** et al. Dis Colon Rectum 2006; 49: 939-944
29. Rigid sigmoidoscopy: a potential hazard for cross-contamination. Lubowski DZL, **Newstead GL**. Surg Endosc. 2006 May; 20(5): 812-4 Epub 2006 Jan 17.
30. Practice parameters for the prevention of venous thrombosis. Stahl T, Gregorczyk S, Hyman N, **Newstead GL** et al. Dis Colon Rectum 2006; 49: 1477-1483
31. Practice parameters for the treatment of fecal incontinence. Tjandra JJ, Dykes SL, Kumar RR, **Newstead GL** et al. Dis Colon Rectum 2007; 50: 1497-1507
32. Practice Parameters for the surgical management of Crohn's disease. Strong SA, Koltun WA, Hyman NH, Buie WD, **Newstead GL** et al. Dis Colon Rectum 2007;50: 1735-1746
33. Practice Parameters for Anal Squamous Neoplasms. Fleshner PR, Chalsani S, Chang GJ, Levien DH, Hyman NH, Buie WD, **Newstead GL** et al. Dis Colon Rectum 2008; 51: 2-9
34. Standardized algorithms for management of anastomotic leaks and related abdominal and pelvic abscesses after colorectal surgery. Phitayakorn R, Delaney CP, Reynolds HL, Champagne BJ, Heriot AG, Neary P, Senagore AJ, **Newstead GL**, et al (International Anastomotic Leak Study Group). World J Surg. 2008 Jun; 32 (6):1147-56
35. Post-Anal Repair – Do the Long-Term Results Justify the Procedure? Mackey P, Mackey L, Kennedy M, King D, **Newstead G**, Douglas P, Lubowski D. Colorectal Dis. 2009 Feb 7. [Epub ahead of print]
36. Philip Richard Douglas (Obituary). **Newstead GL**. Med J Aust. 2009; 12 (4) 367-372.
36. The feasibility of sentinel lymph node biopsy in colorectal cancer staging. Leung E, Francombe J, Chew S, Douglas P, **Newstead G**. World J Surg; 2009

37. The risk of cross-contamination during rigid sigmoidoscopy. Lubowski DZ, **Newstead GL**. *Colorectal Dis.* 2010, 12 (30) 268.
38. Achieving Quality in Colonoscopy: Bowel Preparation Timing and Cleanliness. Athreya PJ, Owen GN, Wong SW, Douglas PR, **Newstead GL**. *ANZ J Surg* 81 (4):261-5 April 2011
39. International preoperative rectal cancer management: staging, neoadjuvant treatment, and impact of multidisciplinary teams. Augestad KM, Lindsetmo RO, Stulberg J, Reynolds H, Senagore A, Champagne B, Heriot AG, Leblanc F, Delaney CP; International Rectal Cancer Study Group (Newstead, GL). *World J Surg.* 2010 Nov; 34(11):2689-700.
40. Sexual dysfunction associated with the management of rectal cancer: can we do better? McFadden N, **Newstead GL**, Lubowski DZ. *Brit J Surg.* Sep 2012
41. Clinical competence in the surgery of rectal cancer: the Italian Consensus Conference. *Int J CR Disease* DOI 10.1007/s00384-014-1887-x. Editorial Commentary **Newstead G L**. 2014
42. Randomized controlled trial of probiotics after colonoscopy. D'Souza B, Slack T, Wong S W, Lam F F, Muhlmann M D, Koestenbauer J, Dark J, **Newstead G L**. *ANZ J Surg.* 2015 Jul 17.
43. Plasma TIMP-1 and CEA as Markers for Detection of Primary Colorectal Cancer: A Prospective Validation Study Including Symptomatic and Non-symptomatic Individuals. Christensen I B, Nielsen H J, King D W, **Newstead G L**, Davis G L. *Anti-Cancer Research.* 2015
44. A new method for treating fecal incontinence by implanting stem cells derived from human adipose tissue: a randomized double blind clinical trial. Sarveazad A, **Newstead G L**, Mirzaei R, Taghi Joghataei M, Bakhtiyari , Babahajian A, Mahjoubi B. *Stem Cell Research & Therapy SCRT-D-16-00422*
45. When the benefits outweigh the risks: preventing colorectal cancer. **Newstead G L**. *ANZ J Surg.* 10.1111/ans.14305

NATIONAL AND INTERNATIONAL CONFERENCES AND SYMPOSIA ORGANISED

1. Combined meeting Royal Australasian College of Surgeons, Royal Australasian College of Physicians & Royal College of Physicians and Surgeons of Canada, Sydney, 1980
Member organising committee
2. Gastroenterological Society of Australia
Chairman, Scientific Programme Committee, 1983 - 1987
Seven annual national conferences and one international conference
3. Sydney Colorectal Surgical Society
Annual Scientific Meetings, 1984 - 1991
Member organising committee
4. RACS, GSM, Sydney, Secretary Organising Committee, 1995
5. Pharmaceutical Industry Hospital Training Courses.
Organised 1986 and 1988
6. Section of Colon and Rectal Surgery, Royal Australasian College of Surgeons,
Continuing Medical Education Meeting, Sydney 1987
7. 1st & 2nd International Gastroenterology Congresses on Digestive Health Programmes in South East Asia.
1987 & 1988.
8. World Congress of Gastroenterology, Sydney, 1990. Member Organising Executive and Programme Committee.
9. World Congress of Coloproctology, Sydney, 1990.
Secretary to Congress and Chairman, Scientific Programme Committee.
10. International Colorectal Meeting, Barrier Reef, 1990, Satellite Meeting to follow Sydney Congress.
Convenor. Formation of World Council of Coloproctology.
11. Consensus on Follow-up for Colorectal Cancer, Colorectal Surgical Society of Australia, Brisbane, October 1991.
12. Colorectal Laparoscopic Surgical Workshop, Colorectal Surgical Society of Australia, Sydney, March, 1992.
13. Tripartite Meeting, Section of Colon and Rectal Surgery, RACS and Colorectal Surgical Society of Australia, Association of Coloproctology of Great Britain and Ireland and American Society of Colon and Rectal Surgeons, Sydney, October 1993.
14. World Council of Coloproctology Annual Meetings, 1990 - 1997.
15. Member, International Advisory Board, 5th World Congress of Coloproctology, Los Angeles, 1994.
16. International Society of University Colon & Rectal Surgeons Meeting, Singapore, 1994.
17. Workshop on Best Practice Parameters for the Management of Rectal Cancer, CSSA, Sydney, 1995
18. Combined Australian Colorectal Conference Sydney, 1995.

19. Tripartite Meeting, U.K, American & Australasian Colorectal Societies, Sydney 1993.
20. Tripartite Meeting, London, 1996 (Australasian Programme Coordinator)
21. Workshop on Best Practice Parameters for the Management of Colon Cancer, CSSA, Coolum, 1997
22. Tripartite Meeting & Centenary ASCRS, Washington DC May 1999 (Australasian Programme Coordinator)
23. Sydney Colorectal Surgical Society AGM, Prince of Wales Hospital, March 2000
24. Symposium on Emerging Trends in Management of Anal Disease, ISUCRS Meeting Osaka, Japan, April 2002
25. Symposium on Haemorrhoid Management, Japan Society of Coloproctology, International meeting, Yokohama, Japan, October 2002
26. The Colorectal Foundation, Inaugural Meeting, April 2003
27. International Standards for Colorectal Surgical Training Programmes, ASCRS, June 2007
28. “Second Really Matters”: National Bowel Cancer Awareness Programme launch, April 2008
29. Annual ICCP (meeting held in USA each year at time of ASCRS meeting), 1991

CONTINUING MEDICAL EDUCATION

Scientific Meetings Attended (general listing)

Royal Australasian College of Surgeons, Annual Scientific Meeting
NSW State Committee, RACS
Sydney Hospital Colorectal Unit Meetings (previous years)
Concord, RAH, RNSH Registrar/Guest Weeks (by invitation)
Coast Reunion Weeks, Prince Henry Hospital
Section Colon & Rectal Surgery, RACS (bi-annually)
Colorectal Surgical Society of Australia/-asia: Meetings & Workshops (Annually & in Spring)
World (later, International) Council of Coloproctology (annually)
Asian Federation of Coloproctology (biennially)
World Congresses of Gastroenterology/Coloproctology (4 yearly)
Surgical Research Society of Australia
Gastroenterological Society of Australia (annually)
Clinical Oncological Society of Australia
American Society of Colon & Rectal Surgeons (annually since 1985)
Association of Coloproctology of Great Britain & Ireland
International Society of University Colon & Rectal Surgery (Alternate years)
Society of Neuromuscular Sciences
Sydney Colorectal Surgical Society (annually)
Tripartite Colorectal Meetings (Triennially)
Collaborative Conference on Colorectal Cancer Screening
Minneapolis, Cleveland Clinic Florida, Cleveland Clinic Ohio, Oschner Clinic New Orleans: Colorectal courses
Multiple other International Meetings in Asia, Europe, South America and USA (several annually)

Colorectal Units Visited: International

Ochsner Clinic, New Orleans, LA, USA 1979, 2001
Mayo Clinic & Minneapolis Colorectal Associates, MN, USA 1986
Cleveland Clinic Foundation, Cleveland, OH, 1993, 1995
CCF, Ft. Lauderdale, FL, USA 1996, 2000
St Marks Hospital, London, UK (several visits)
University of Vermont, VT, USA 1997
Multiple other Colorectal Units in Asia, Europe, South America and the USA (several annually)

Colorectal Units Visited: Australia

Sydney Adventist; St George; Concord; Royal Prince Alfred; Westmead
Royal Adelaide, Royal Perth, Royal Hobart, Royal Brisbane, Royal Melbourne
Charles Gardener, Perth
Launceston General Hospital
St Vincent's and The Alfred, Melbourne

Journal Subscriptions

Australian & New Zealand Journal of Surgery

SUBSEQUENT and ADDITIONAL LECTURES

Many lectures have been given since 1972 to hospital departments and at meetings in Australia, and to clinical departments during interstate and international visits, in the United States of America, Latin America, Europe, Asia and the United Kingdom. These topics are summarised as follows:

- a) Research:
Fibrinolytic activity of colonic cancers, colonic mucosal enzymes, techniques in bowel preparations, prospective trials on antibiotics in colonic surgery, pelvic lavage, adjuvant post operative radiotherapy for rectal cancer, adjuvant chemotherapy for colon cancer, epidural anaesthesia in pelvic surgery.
- b) Clinical:
Prophylaxis of surgical infection and microbiology of colorectal disease, colonic preparation, protocol for management of colonic haemorrhage, management of low rectal cancer, pouch construction, management of the presacral space, rectal prolapse, rectal intussusception and incomplete mucosal prolapsed, review of and recommendations for intestinal complications of radiotherapy, anal pathology, pathophysiology of small intestinal irradiation injury, management of rectal bleeding, office proctology, gay ano-rectal disease, and disease in the immune deficient patient, Ileoscopy, colonoscopy, colonic polyps, adenocarcinoids, intensive care nursing after intestinal and pouch surgery ambulatory and day anorectal surgery including fissure, fistula and haemorrhoids.
- c) Peer Review:
Quality Assurance Programmes, Morbidity low anterior resection & other clinical colorectal activities, Surgical Unit Audits, Best practice in rectal cancer surgery.
- d) Public Education:
Lectures on colorectal and anal disease to GP groups, Family Medicine Programme, Colostomy Rehabilitation Association and Ileostomy Association, Australian Crohn's and Colitis Association; Screening Programmes for the Prevention of Bowel Cancer to many community groups; production of television commercials, educational materials, public displays and media appearances.
- e) International Activities
Globalisation of Colorectal surgery, Standards in Colorectal surgery, Colorectal

training programmes, international Exchange programmes; Bowel Cancer Awareness, Outreach (Them to Us and Us to Them)

TEACHING ACTIVITIES

a. Undergraduate

i) Teaching:

1. Introductory lecture to 2nd year students on the abdomen (annual).
2. Clinical examination tutorial to 3rd year students (weekly).
3. Fourth year and (currently) Sixth Year:
 - lecturer, specific programme topics
 - tutor, joint discussion groups
 - small group tutor, ward attachment programme

Weekly:

Teaching ward rounds

Clinico-pathological correlation tutorials

Gastroenterology topic tutorials

Discussion group

- x-rays
- Procedures
- Examinations

Office proctology and endoscopy

Operating theatre tutorials

Sessions in Prince of Wales (Private & Public) Hospitals

4. Responsibility for attached students in special categories
 - "Barrier" students
 - AMEC candidates
 - Overseas students on electives
5. Work-experience high school students

ii) Supervisory responsibilities

- Co-ordination of 4th Year Surgical Teaching Programme Prince of Wales Hospital (previously)
- Collaboration with Warden of Clinical Studies, regarding surgical curriculum and assistance with problems experienced by individual students.

b) Post-graduate

Supervision of Honours and Higher Degree Students

1. Ms Leisa Pennefather, BSc (Hons), 1981 UNSW,
A Histochemical Study of Mucins in the Human Colon and Stomach.
2. Dr Stephen Wilkinson, MD, 1984-1089 UNSW,
Production in-vitro of Human Cytotoxic T-Lymphocytes specifically allergised against Breast Cancer.
3. Mr Andrew Biankin, BMedSci, 1987 UNSW.
Morphological changes in Histogenesis of Human Colonic Adenocarcinoma

c) New Subjects, Courses, Programmes Developed

- i) Responsible for revision and implementation of 4th Year surgical curriculum Prince of Wales and Prince Henry Hospitals, 1979.

Aims:

To maximise opportunities for ward attachment involvement during day, keeping formal sessions to the “peripheral” hours.

To employ small group tutorials with “structured freedom”, so that all important topics are approached without didactic lecturing.

To ensure students are exposed to the management of disease processes as they related to viscera, rather than attempt to cover all diseases, encourage reading around that exposure.

To encourage the attached students to act as “interns” and to ensure they are accepted as part of the ward unit.

- ii) Commencement of clinico-pathological correlation sessions, using both clinician and pathologist in combined tutorial session with small groups, to foster a better practical application of important pathological conditions.
- iii) Organisation of an introductory day for fourth year students entering the new clinical attachment programme
- iv) Registrars’ training Programme:
 - Home Sessions
 - Hospital Sessions
 - Development of formalised programme
- v) Stomal therapy service instituted and developed for Prince Henry, Prince of Wales and Prince of Wales Children’s Hospitals

Helen Carty Memorial Squibb Prize awarded to Stomal therapist, Prince of Wales Hospital, 1991.

- vi) Year VI Curriculum (new programme) developed and instituted, 1993
- vii) Participation in development of Communications course for medical students & interns, 1999.

d) Innovations in Teaching

i) Undergraduate

Small group tutorial on selected topics not covered by curriculum or texts.

viz: Techniques for preparation for clinical examinations:
Long case, short vivas, short answer questions and MCQ's.
Interpretive radiology tutorials
Practical procedures tutorial
Role-playing in clinical situations

ii) Postgraduate

1. Post Fellowship colorectal surgical training programme for Australasia.
2. Endoscopy training programme: RACS, RACP and GE Society of Australia.
3. International exchange of colorectal fellows.

e) Teaching/Subject Evaluations Conducted

- i) Attendance at various TERC and CMRED workshops.
- ii) Critical discussions with student groups regularly regarding:
 - their assessment of tutorials
 - their assessment of attachment
 - their assessment of surgical teaching programme & course
- iii) Discussions with individual students on personal matters as required.
- iv) Frequent communication with Clinical Teaching Unit staff and Clinical Warden.

f) Contributions to Professional Development Programmes

- i) Supervisor of Surgical Training for Prince of Wales, Prince Henry, Sutherland & Bankstown Hospitals (1983 - 1990).
 - Responsible for Basic, Advanced and Postgraduate Surgical Training

Programmes in General Surgery

- Involved in advisory capacity with specialty surgical training programmes.
- Attendance at meetings of General Surgical Training committee and Supervisors of Surgical Training (State & National), RACS. Interview programmes at Teaching Hospitals.
- Duties include log book maintenance and review, tutorials, interviews, referees reports, summaries of experience, trial examinations and annual selection and appointments.
- Centralised training and teaching programme.

ii) Colonoscopy Training

Since 1975, I have trained >60 post-fellowship surgical and medical registrars in colonoscopy to the standards required for recognition of gastrointestinal endoscopic training (and for the RACS Rural Endoscopy Training Programme, 1993).

iii) RACS Course (annual)

Lecturer and examiner for selected candidates for the final Fellowship in Surgery, Royal Australasian College of Surgeons (Annual): Prince of Wales Hospital & other Sydney Teaching Hospitals.

Guest lecturer and panellist at annual course venues at various Sydney teaching Hospitals

iv) Workshops

1. ACHS Surveyor Training Workshop 1983
2. Endoscopy
Participation as lecturer and demonstrator for flexible sigmoidoscopy and colonoscopy workshops.
 - RACS, Melbourne 4.84
 - RACS, Sydney 3.85
 - RACS, Adelaide 3.88
 - RACS, Brisbane 5.88
3. Surgical Techniques
 - Stapling, PHH 1977-78, 1980
 - _____ World Congress of Coloproctology 1990
(Postgraduate course organiser)
4. Ano-rectal Disease
Family Medicine Programme, RACGP 1992

5. Endoscopy Training Workshop:
Chairman of Committee, convened to address the problem of recognition of endoscopy experience and training for delineation of privileges, by the Colleges of Surgeons and Physicians and the Gastroenterological Society of Australia.
6. Follow up after Colorectal Cancer, Brisbane 5/97
7. Laparoscopy, Sydney University & Maui, USA 1992
8. Credentialling in Colorectal Surgery 1995
9. Best Practice Parameters for Management of Rectal Cancer, 1995
10. Best Practice Parameters for Management of Colon Cancer, 1997
11. Australian Cancer Network Workshops 1996-1998: Guidelines for the prevention, early detection and management of colorectal cancer (NHMRC,1999)
12. Laparoscopy, CSSA 1993
13. Standards, ASCRS 2007
14. Training, ASCRS 2008
15. Globalisation, ASCRS 2009
16. Education, ASCRS 2010

v) Pamphlets

- Guidelines for Resident & Nursing Staff (1982)
- Bowel preparation
- Management of patients after banding
- Management of patients after anal surgery
- Disinfection booklet and paediatric endoscopy (GESA)
- Colorectal disease (CSSA) – various
- Bowel Cancer Awareness

vi) Post-Fellowship Specialty Training Programme in Colon & Rectal Surgery

Chairman of Meeting convened SCRSS August 1986, to address specialty colorectal surgical training in NSW; report to Section of Colon & Rectal Surgery, RACS; principles adopted for National Programme under auspices of Section of Colon & Rectal Surgery, RACS. Appointed NSW Co-ordinator.
Later combined supervision from CSSA (Joint Training & Accreditation Committee)

vii) Lecture Programme for Gastroenterology Nurses, Prince of Wales Hospitals

viii) Australian Colorectal Surgical Society

Development of Constitution, November, 1988
Later renamed Colorectal Surgical Society of Australia
Later again, Colorectal Surgical Society of Australia and New Zealand

ix) World Organisation of Colorectal Surgical Societies 1990

Founding and development of Constitution
Later renamed World Council of Coloproctology
Later again, International Council of Coloproctology

- x) Field Training Courses for Pharmaceutical Industry
- xi) NHMRC/COSA/ACN: Management of Colorectal Cancer 1998
- xi) Australian and International Colorectal Development Programmes:
See detailed listing under "Colorectal Activities within Australasia" (page 9)
and "International Colorectal Activities" (page 10)
- xii) Stomalthery and Colorectal Clinical Nurse Consultant positions established within
Mayne Health, later Affinity, then Healthscope (Private Hospitals system)

SERVICE

a) **Hospital Departmental: Prince of Wales Group**

- i) Senior Responsibilities
Division of Surgery (Interval Acting Chairman), Deputy Chairman
Department of General Surgery (Interval Acting Chairman)
Heads of Departments
Supervisor of Surgical Training
- ii) Service at various intervals on Hospital Committees
Quality Assurance
Oncology Data
Morbidity/Mortality
Library
Medical Records
Resident Placement
Research Publication
Seminar Programme
Institute of Oncology
Journal Club
Day Surgery
O.T. Utilisation
Pharmacy
Medical Staff Advisory
Executive
Redevelopment

b) **University of NSW**

- i) Faculty of Medicine
School of Surgery

- ii) Special activities:
 - Dean's interviewing panel (incoming students) 1976-1985
 - Vice-Chancellor's committee on Private Practice (previously)
- iii) Curricula Committees (at various intervals)
 - Third Year
 - Fourth Year
 - Fifth Year elective
 - Sixth Year

c) Clinical

- i) Supervisor of Surgical Training 1983 - 1990
- ii) Stomal Therapy: Introduction and development of Hospital and outpatient services to Prince of Wales and Prince Henry Hospitals (commenced 1981).
- iii) Colonoscopy Service: Development and expansion of colonoscopy service procedures; training programme for colonoscopy and gastroenterology nurses; development in techniques, preparation and therapeutic procedures; equipment modification. Development of instrumentation: invited to Olympus head office, Tokyo, Japan, June 1981.
Trained 32 surgeons and physicians to full accreditation in colonoscopy for recognition
of
Gastrointestinal Endoscopic Training
- iv) Colorectal Instrumentation: Design of new equipment for pelvic surgery (incl. overhead table); laboratory and clinical assessment of stapling instruments.
- v) Computerised Bowel Cancer Data and Colonoscopy Recall Programmes; Gastrointestinal and Colorectal audit.
- vi) Quality Assurance Programmes.
- vii) Special techniques in colorectal disease: sphincter preservation & reconstruction, ileal reservoir, ileo-anal pouch procedures.
- viii) Protocols for adjuvant & radiotherapy.
- ix) Office Proctology: Developments and expansion and refinement.
- x) Ano-rectal & Pelvic floor assessment service. Physiological & ultrasonographic.
- xi) Genetics. Genetic Screening Programme for high risk patients in association with clinical genetics.
- xii) Data Entry: Employment of Medical Records Administrator. Entry of approx 20,000 records for analysis.

- xiii) Laparoscopic colonic surgery
- xiv) Day anorectal surgery
- xv) Colorectal Research Fellow appointment
- xv) Research Co-ordinator appoint

d) Examiner

UNSW Faculty of Medicine
Guest Examiner, American Board in Colon & Rectal Surgery, Chicago, 1995
Australian Medical Examining Council

e) Post Graduate Course Participation

Retraining AMEC Candidates
Faculty of Medicine Programmes
RACS Course

EARLY RESEARCH

(*original work)

1) Evaluation of Percutaneous Transhepatic Cholangiography

As registrar in training (1968) involved in development with the Department of Diagnostic Radiology at Prince Henry Hospital following its introduction.

2) Colorectal Carcinoma

Following appointment as Gordon Jacobs Research Fellow, at the Institute of Cancer Research in 1972, developed several areas of colorectal research interest with particular emphasis on malignant disease.

a. ⁶⁷Gallium Citrate Localisation and Excretion*

Carried out in 1973, with collaboration of the Departments of Biophysics and Nuclear Medicine within the Institute of Cancer Research in London.

b. I-125 Fibrinogen*

Carried out at the Royal Marsden Hospital, London, England as an adjunct to the tumour fibrinolysis project (detailed below).

c. A study of Haemodynamic Patterns in Colorectal Cancers*

In order to establish the haemodynamic pattern of colonic cancers, in particular the flow at unit time and its variation along a specimen, and the amount of shunting which might be occurring past the cancer, isolated tumours of colon and rectum with adenocarcinoma were subjected to perfusion and then intra-arterial specimen installation of isotope-labelled "microspheres". A phasic pattern of unit blood flow was found to occur in the intestinal wall, apparently related to the disposition of the vasa rectae.

d. Haematological Properties and Effects of Cancer of the Colorectum*

This work comprised the major research study undertaken during tenure of a Fellowship with the Institute of Cancer Research.

Early interest in the circulating cancer cell led to conflicting results, one major report suggesting a drastically lower survival rate in patients with positive systemic blood samples, yet another suggesting that demonstration of cancer cells in blood had very little prognostic significance. A pilot study demonstrated a high incidence of fibrinolytic episodes in patients with colonic tumours and these episodes bore a direct relationship to the demonstration of malignant cells in the venous blood draining from a colonic tumour.

The major part of the research was aimed at further examining the fibrinolytic activity of peripheral blood, local tumour blood and tumour tissue in relation to the recovery of circulating malignant cells in patients

with carcinomas, particularly of the colorectum. More than 100 patients were included in the study, some with benign colorectal disease.

The major vein draining the tumour was cannulated immediately the abdomen had been opened. Haematological tests were carried out to determine the fibrinolytic activity of the blood and each sample was also examined for circulating malignant cells. The tissues were examined by application of standardised amounts onto fibrin plates and also by preparation of histological autographs in order to demonstrate the specific origins and amounts of lysis.

The results indicated that absence of increased fibrinolytic activity was related to a low recovery of circulating cancer cells and that excessive activity might well be a major factor in the release of a high number of cells. The local activity appeared to be derived from tumour cells which were both viable and necrotic and might therefore be both fibrinolytic and proteolytic in nature. Fibrinolytic activity might well be important in aiding the local release of malignant cells yet systemically be responsible for reducing metastatic implantation by keeping the cancer cells in circulation, viability probably being lost after some five years

e. Histochemical Study of Gastrointestinal Epithelial Mucins*

Collaboration with Dr Saw Kin Loo, Senior Lecturer in the Department of Anatomy, University of NSW, began in 1978 with an attempt to assess the nature of the proteolytic activity released from colorectal tumours. This led to the development of an interest in the nature of the mucins in colonic mucosa and the different types found in varying disease states.

A project was devised to study the distribution of neutral, sulphated and non-sulphated acid mucins in normal gastric and colorectal mucosa. The results were compared with the differences found in neoplastic tissue and in the mucosa adjacent to tumours (“transitional” epithelium).

Concurrently, a technique for freeze-drying the sampled tissues was compared with the conventional formalin-fixation method to determine whether freeze-drying proved to be a more reliable and reproducible indicator of mucin distribution and content.

The results of these studies were subsequently incorporated in the Theses of Mrs Leisa Pennefather and Mr Andrew Biankin.

3. Bowel Preparation

Preparation of the large intestine is a necessity for radiological investigation, colonoscopic assessment and therapeutic techniques, and for colonic surgery. Previously available techniques for full bowel preparation required admission to hospital several days before a procedure and the use of retrograde washouts. Oral Mannitol was developed as an orthograde lavage and provided an effective and comfortable preparation which became used internationally. (1978)

Further development led to an electrolyte solution with an inert osmotic base (required because of excessive hydrogen production by the action of anaerobic bacteria on the disaccharide in Mannitol).

4. Buscopan Infusion Study
To assess the relaxation response of sigmoid muscle hypertrophy.

5. Antibiotic Studies
Recognition of the importance of anaerobic bacteria led to the development of antibiotics effective against a broad spectrum of aerobes and anaerobes. A number of clinical studies and randomised trials carried out.
An assessment of the recovery of antibiotics from the peritoneal cavity was undertaken.
 - Imipenen Study
A study undertaken to evaluate the use of Imipenen in peritonitis

 - Pelvic Lavage*
A comparative study of pelvic sump suction with irrigation against standard drainage has been performed in patients undergoing rectal excision showing a reduction in anastomotic leak rate.
A further study using antibiotics (& not) showed no difference.

6. Adjuvant Therapy in Colorectal Cancer
Participating (NSW Co-ordinator) in two Australasian co-operative trials:
 - a. Adjuvant intraportal 5 Fluorouracil in patients with Dukes' B and C colonic carcinoma, given a 5-15% improvement in 5 year survival. Used in clinical application.
 - b. Post-operative radiotherapy in patients with Dukes' B and C carcinoma; abandoned because of lack of patient accrual.
Later reassessed as part of cooperative study.

7. Epidural Anaesthesia in Pelvic Surgery
Prospective 20 year experience with this technique. Potential to diminish haemorrhage, collapse (small) intestine and reduce post operative pelvic pain without interfering with respiratory capacity.

8. Irradiation Injury to the Intestine*
In 1980, a 10 year retrospective analysis of patients who underwent radiotherapy for carcinoma of the cervix showed a 14% chance of developing major intestinal complications and a 25% chance of dying from surgical intervention, if required. Both the techniques of application of the radiotherapy and the methods of surgical management were modified, resulting in a 2.5% morbidity and a zero mortality

rate in the subsequent 5 years.

9. Colonoscopy Complications*
A review of 15,000 patients has been undertaken to analyse the complication rate (0.11%) and to assess the aetiological factors in each patient. These results have been presented at Scientific meetings.

10. Ano-rectal Techniques
 - i) *Office proctology: Development of procedural techniques for the simple non-hospital management of patients, particularly with haemorrhoids; comfortable and vastly cost-effective (current review of 500 patients).
 - ii) Laboratory and clinical procedures for ano-rectal physiological assessment and their application to new surgical procedures in sphincter reconstruction and preservation.

11. Intraoperative Hepatic Ultrasound
Study to compare pre-operative and intra-operative ultrasound of liver in patients with colorectal cancer.

12. Quality of Life after Pouch Construction
Survey of patients following proctocolectomy. Assisting Sr Monica O'Sullivan (Stomal therapist Awarded Helen Carty Award, 1991)

13. CO₂ Insufflation and Ileus*
Controlled study to assess relevance of CO₂ use in laparoscopic surgery in the incidence and timing of ileus (with Dr G Hool)

LATER RESEARCH

Bowel Cancer Prevention Programme (including Epidemiological study; published)

Incomplete mucosal prolapse: Morphological variations and management

Ileo-anal J pouches in children

Levovist ultrasound enhancement in the assessment of anal fistula

Sentinel node mapping in colorectal cancer

Medium and long term results of (large series) of haemorrhoids and incomplete mucosal prolapse treated by sclerotherapy and banding

Incidence of Fistulae with Fissures

Minimising pelvic local recurrence after low anterior resection

Metaplastic polyposis: the syndrome and genetics (with Dr K Tucker-geneticist)

Assessment of the pattern of development of glycolipids as a screening test for colon cancer (Principal Investigator): Co-operative research project with Biotron (Dr V Tedesco, Australian National University)

Tedesco,

Microsatellite instability in colorectal cancer, adenomas and metaplastic polyposis

(DHM)

Anal fistulae in anal fissures

Fibrin Plugs for high anal fistulae

Randomised trial of banding with and without sclerotherapy

Proctoplastique (PTQ) for anal sphincter deficiency

TENS in faecal incontinence

Comparative study of efficacy of colonic recall systems

Risks of infection from sigmoidoscope bellows

Long term results for local recurrence after resection of rectal cancer

Collaborative studies: Preoperative radiotherapy for T3 rectal cancer (Multi-centre ANZ study)

VICTOR (Vioxx after CR cancer resection)
Neurochemical Modulators in human intestine (UNSW)
(National) Colorectal cancer database (CSSA workshop 5/04)
TIMP study to assess proteins in colorectal neoplasia

Randomised trial of Tisseel in prevention of anastomotic leaks in low rectal resection

Effects of Probiotics on the recovery of normal bowel function after bowel preparation

RESEARCH SUPERVISOR (FELLOWS, REGISTRARS, STUDENTS & NURSES):

1. Dr D Smart, 1981
Use of prophylactic antibiotics in abdominal surgery.
2. Dr Moheb Ghaly 1982
Morbidity of APER
3. Dr J Lizzio, 1982
A review of the changing incidence of Crohn's disease in the Prince of Wales Hospital.
4. Dr D Huber, 1983
Radiotherapy complications of the intestine after treatment for carcinoma of the cervix.
5. Dr I Davis, 1985
Clinical significance of histological differences in colonic polyps.
6. Dr D Fenton-Lee, 1986
Histogenesis and natural history of adenocarcinoid tumour of the appendix.
7. Dr M Kohn, 1987
Blood utilisation in the emergency room: a clinical audit.
8. Dr G Testa, 1987
Is there a place for barium enema?
9. Dr P Douglas, 1988
Intraoperative Hepatic Ultrasound in colorectal cancer surgery.
10. Dr D Perkins, 1990
Campylobacter jejuni enteritis.
11. Dr J Stewart, 1991
Metaplastic polyposis coli.
12. Sr Monica O'Sullivan
Enterostomal Therapist

Quality of Life study, 1991

13. Dr David Littlejohn, 1997
Anal sphincterotomy
14. Dr Pierre Gasne, 1998
Office management of haemorrhoids
15. Dr Andrew Renaut, 1999
Hyperplastic polyposis.
16. Dr Richard Simpson, 2000
Paediatric ileo-anal J pouches
17. Dr Simon Chew 2001-2002
Agents to enhance intra-anal ultrasound in the assessment of anal fistula
The spectrum of incomplete mucosal prolapse
Sentinel node mapping in colorectal cancer
QOL questionnaire on long term results of haemorrhoidal banding
Techniques of intubation of the terminal ileum
Incidence of cholecystectomy in terminal ileitis (Crohn's disease)
18. Dr Shing Wong, 2003
Use of TENS for sacral nerve stimulation in the management of faecal incontinence
Recommendations in the management of Meckel's diverticula (with Dr Ramon Varcoe)
Multiple carcinoids (with Dr Robert Simon)
19. Dr Michelle Thornton 2003, Triguboff Colorectal Research Fellow.
(With A/Profs Denis King & David Lubowski)
Electrical wave forms in anal fissure
Botox in the management of anal fissures
Results of Graciloplasty for anal incontinence
Patterns of anal sphincter disruption after normal childbirth
20. Dr Elizabeth Murphy 2004, Colorectal Fellow.
Spectrophotometric Fingerprints in Colorectal Neoplasia (with Biotron, ANU), commenced 2003
MSI in colorectal cancer and hyperplastic polyposis (with Dr William Felbel, Douglass Hanly Moir)
Anal fistula in chronic anal fissures
Randomised controlled trial of banding with/without sclerotherapy for haemorrhoids
Optimising colonoscopy recall programmes
BST projects; case reports
21. Ms Penny Berg BSc 2004, Triguboff Colorectal Research Fellow.
(For Sydney Colorectal Associates:)
Development, consolidation and maintenance of clinical databases
Co-ordination of database of research projects and development of schedules

Supervision of progress of research projects
Preparation of research reports, schedules for presentations and publications
Preparation of budgets and funding allocations

22. Dr Rohan Gett 2005, Colorectal Fellow.
Tisseel study as submission for MS (part-time) degree, University of Sydney
23. Dr Chung Ming Chen 2006, Visiting Colorectal Fellow.
Incidence of underlying fistulae and sinuses in patients with anal fissures
24. Dr Jodie Ellis-Clarke 2006 Colorectal Fellow.
Audit of local recurrence following low anterior resection of rectum
25. Dr Carina Chow 2007 Colorectal Fellow.
Neoplastic microscopy during colonoscopy
26. Dr Gareth Owen 2008, Colorectal Fellow.
Optimal timing of bowel preparation
27. Dr Mark Muhlmann 2009, Colorectal Fellow.
Open Appendicectomy , Chapter in Robb & Smith, Operative Surgery, 6th Ed.
28. Dr Sanjay Kariappa, 2010 Colorectal Fellow.
Molecular biology of metaplastic polyposis and serrated adenomas
29. Dr Timothy Slack, 2012 Colorectal Fellow & Dr Basil D'Souza, 2013 Fellow.
Effects of Probiotics on the recovery of normal bowel function after bowel preparation
30. Dr Ada Ng, 2014 Colorectal Fellow: Various Research projects
31. Dr Rhys Filgate, 2015 Colorectal Fellow: Various Research projects
32. Dr Raymond Yap, 2016 Colorectal Fellow: Various Research projects
33. Dr Julian Ip, 2017 Colorectal Fellow: Various Research projects
